

To the FCC, I use the x-m radio traffic updates often because I must travel thru Dallas, TX and Houston, TX regularly for my business. It is so helpful to hear the updates so I can take alternative routes to avoid slowing and construction on the freeways. I'm certain that the traffic updates have saved me much valuable time and expensive fuel costs.

Please reject the NAB's petition 04-160. My family, business and I need the traffic and weather updates that are included in our paid subscription to x-m satellite radio. Please don't let us hard working tax payers down.
Thanks for listening,
Clarence Brown
